About Glencore's coal business in Australia

Glencore is one of Australia's largest coal producers with 15 operational mines across New South Wales and Queensland.

We provide employment for more than 10,000 people and in 2022 managed the production of about 95 million tonnes of thermal and coking coal, predominantly for export.

We have a strong safety and environmental performance and play an active role in the development of low emission coal technology.

Our Community Investment Focus Areas

Every year, we support our local communities via a combination of partnerships, sponsorships, funding and voluntary employee contributions. We aim to build positive and lasting social and economic benefits by seeking out, undertaking and contributing to activities and projects aligned with these goals.

To be considered for community investment, whether financial or in-kind, applications must demonstrate how the initiative will make a positive contribution to the community and should target at least one of the following focus areas:

Education

Indigenous

Health

Environment

Identified Local Need

Additional local and regional priority areas may also be communicated by individual Glencore Coal operations. Applications that address these priority areas may also be accepted.

What funding is available?

We will accept applications of up to \$5,000 and assess them on merit and value to the community. Larger applications may be discussed with the applicable Glencore operation prior to application.

NB: Projects or initiatives that apply for a portion of the total project costs will not be considered unless the remaining project costs are secured - either from the applicant organisation or other funding sources.

Is your community project eligible for funding?

To be eligible, the application must:

- be located in the Muswellbrook/Denman/Sandy Hollow and Wybong areas
- be from a not-for-profit, incorporated organisation operating a separate, auditable organisational bank account
